The KamuiPenthouse

The Kamui penthouse represents the jewel in the crown in the first boutique apartment complex in the history of the Annupuri area. Boasting world-class naturalist designs and all the latest features, this apartment is truly peerless in the Annupuri area.

With construction getting underway this summer, investors will have the option of creating a fourth bedroom or jacuzzi suite as part of the apartment layout.

The architectural design of the kamui niseko is strongly influenced by the surrounding environment. By using the same colours for the materials as the snow and trees, the building blends nicely with the unique tranquility of the Annupuri area. The shape of the building is designed to overlook the spectacular view from each room including the bedrooms, and the large floor-to-ceiling windows also provide a magnificent views of Mt. Yotei or Mt. Konbudake. Each dwelling is also furnished a private balcony, mainly for summer use.
