Hirafu Kabayama Land

With creative use, this land is suitable for construction of several residential homes with main orientation towards Yotei and the valley. Very similar in outlook to the high end Hirafu escapement land, lending itself to cantilever construction in order to realise the full potential of the land. This land is located on the very first bend heading out of Hirafu in the direction of Kabayama. Given the close proximity to the main traffic lights, just 800 meters, it is priced well below the market rate.
