Haven 501 Penthouse

This 4 bedroom, top floor, penthouse is the diamond in the crown in Hirafu's newest boutique apartment development. Boasting un-paralleled panoramic views of Mt. Yotei, the ski slopes and the surrounding village, the apartment is a true treat for the eyes. The apartment is laid out over an expansive 240.74m² leaving space for hedonistic additions such as the cigar and wine room, library and maid's quarters. Each of the 4 bedrooms has a comfortably arranged en-suite with the master bedroom in particular sporting a large relaxing freestanding tub. The features don't end there however, with an exterior deck space, suitcase storage and owner's storage complimenting the already beautifully appointed whole floor apartment. The apartment also comes equipped with the latest electronic floor-heating technology, providing the most efficient and comfortable winter climate control throughout.

The Haven boutique apartment project will also provide owners with access to the underfloor-heated rooftop terrace and accompanying bio-ethanol fire pits, on-site heated parking, walk-in ski locker area with boot-heating mounts and a ground level restaurant/retail space. All these features and more are elegantly built into a picturesque unique, creek-edge setting that is prettily framed by a silver birch forest- inspiring an architecture of expansive glassed-in rooms with protected, indented terraces. The free village shuttle service is also within touching distance.
